Dynamics NAV Addons
a **Vertical Leap** company

USPS Endicia Connector
Addon for Microsoft Dynamics NAV / Navision

A fast, proven, and cost-effective way to integrate USPS Endicia with Dynamics NAV / Navision.

▸ Increase shipping speed and accuracy.

▸ Save time and resources in the warehouse.

▸ View tracking numbers and exact shipping charges for orders in real time.

▸ Stop typing in shipping addresses manually.

Ship and Track Orders with Ease

This shipping connector passes address information seamlessly from a Dynamics NAV / Navision sales order to USPS Endicia, eliminating the need to re-key data into either system at any point.

After the package is processed in USPS Endicia, the addon passes freight charges and tracking numbers back to the Dynamics NAV sales document. (This step is optional and can be configured by the user.)
